Inspection Date:	Inspection Manager and Reviewers:
23 November & 10 December 2009	P Price A Astles

#### Introduction

Independent healthcare providers in Wales must be registered with the Healthcare Inspectorate Wales (HIW). HIW acts as the regulator of healthcare services in Wales on behalf of the Welsh Ministers who, by virtue of the Government of Wales Act 2006, are designated as the registration authority.

To register, they need to demonstrate compliance with the Care Standards Act 2000 and associated regulations. The HIW tests providers' compliance by assessing each registered establishment and agency against a set of *National Minimum Standards*, which were published by the Welsh Assembly Government and set out the minimum standards for different types of independent health services. Further information about the standards and regulations can be found on our website at: www.hiw.org.uk.

Readers must be aware that this report is intended to reflect the findings of the inspection episode. Readers should not conclude that the circumstances of the service will be the same at all times.

### **Background and main findings**

An announced inspection was undertaken to the Albany Medical Centre, Newport on 23 November 2009 by a HIW pharmacist reviewer and on the 10 December 2009 by an Inspection Manager. The clinic was first registered on the 29 December 2008 and is registered to provide weight management and reduction advice and treatment by medical practitioners to patients who are eighteen years or over.

Prior to the inspection visits the registered provider submitted a completed preinspection questionnaire. The inspections focused upon the analysis of a range of documentation, discussion with the registered provider, examination of patient records and consideration of the ordering, storage, use and disposal of medicines. A tour of the premises was also undertaken.

In respect of the inspection findings the registered person had in place:

- A range of policies and procedures, staff had signed to state that they were aware and understood the policies.
- Comprehensive information for patients including a patient guide.
- A system of obtaining patient views was available and viewed.
- Staff employment files were available. Confirmation that the practitioners were registered with an appropriate professional body, references, training records and an enhanced Criminal Record Bureau check were available.
- A protection of vulnerable adult's policy was in place and staff had undertaken training in this area.

• In terms of confidentiality a policy/procedure was available. Staff had signed to state they were aware of this policy.

In respect of the other inspection findings the main focus of the visit was the ordering, storage, use and disposal of medicines. In relation to this area the registered person failed to have in place the following:

- 1. There was no current British National Formulary. A current British National Formulary is now available.
- 2. A written error and near miss procedure was present. Review date 1/4/11 which was accessible to staff. There was a statement in the policy about error recording. No error reporting system was in place,
- 3. A treatment protocol was present, but this did not reference NICE and did not appear to adhere to NICE guidance.
- 4. There are also records of medicines issued to individual patients. The doctor signs the records to patients, but not the stock book. It was stated that the doctor checks the stock books, so should sign these to take responsibility for the balances.
- 5. No DOOP kits were present. The clinic was not clear about disposal of stock waste medicines. The policy states that the manager will arrange a third party disposal contract but this was not in place.
- 6. The policy states that MHRA alerts will be received, but they are not received by the clinic.
- 7. There was no statement regarding off license prescribing in the policy or in the doctor's clinical guidance.
- 8. The temperature of storage area was not evidenced. A thermometer for the rooms where medicines were kept was required and outcomes recorded.
- 9. In relation to patients being given information regarding the medications that were prescribed for them, there was some limited information for clients on the registration form. The doctor states that he discusses medicines with clients. However, no patient information leaflets were provided to patients with their medicines.
- 10. Batch numbers were present on the stock sheets, but were not recorded for each patient.
- 11. Copies of obesity management guidelines to be made available for patients. e.g. NICE

It must be noted that a number of actions had been taken with regard to outcomes from the pharmacist reviewer visit. These have been noted above.

The Inspection Manager would like to thank the manager and staff for there time and co-operation during the inspection visit.

## Achievements and compliance

The clinic was first registered in December 2008, therefore there was no previous inspection report for this establishment.

## **Registration Types**

This registration is granted according the type of service provided. This report is for the following type of service

Description	
Independent Clinic	

## **Conditions of registration**

This registration is subject to the following conditions. Each condition is inspected for compliance. The judgement is described as Compliant, Not Compliant or Insufficient Assurance.

Condition number	Condition of Registration	Judgement
1.	The. The registered person must not provide medical or psychiatric services of any kind nor any "listed services" as defined by section 2(7) of the Care Standards Act 2000 other than weight management /reduction advice and treatment provided by medical practitioners to patients who are eighteen years old or over.	Compliant
2.	Advice and treatment must only be provided by registered medical practitioners.	Compliant
3.	Patients must be aged eighteen years old or over.	Compliant
4.	Overnight accommodation must not be provided to patients.	Compliant

#### **Assessments**

The Healthcare Inspectorate Wales carries out on site inspections to make assessments of standards. If we identify areas where the provider is not meeting the minimum standards or complying with regulations or we do not have sufficient evidence that the required level of performance is being achieved, the registered person is advised of this through this inspection report. There may also be occasions when more serious or urgent failures are identified and the registered person may additionally have been informed by letter of the findings and action to be taken but those issues will also be reflected in this inspection report. The Healthcare Inspectorate Wales makes a judgment about the frequency and need to inspect the establishment based on information received from and about the provider, since the last inspection was carried out. Before undertaking an inspection, the Healthcare Inspectorate Wales will consider the information it has about a registered person. This might include: A self assessment against the standards, the previous inspection report findings and any action plan submitted, provider visits reports, the Statement of Purpose for the establishment or agency and any complaints or concerning information about the registered person and services.

In assessing each standard we use four outcome statements:

Standard met	No shortfalls: achieving the required levels of performance
Standard almost met	Minor shortfalls: no major deficiencies and required levels of performance seem achievable without extensive extra activity
Standard not met	Major shortfalls: significant action is needed to achieve the required levels of performance
Standard not inspected	This is either because the standard was not applicable, or because, following an assessment of the information received from and about the establishment or agency, no risks were identified and therefore it was decided that there was no need for the standard to be further checked at this inspection

#### **Assessments and Requirements**

The assessments are grouped under the following headings and each standard shows its reference number.

- Core standards
- Service specific standards

#### Standards Abbreviations:

C = Core standards

A = Acute standards

MH = Mental health standards

H = Hospice standards

MC = Maternity standards

TP = Termination of pregnancy standards

P = Prescribed techniques and technology standards

PD = Private doctors' standards

If the registered person has not fully met any of the standards below, at the end of the report, we have set out our findings and what action the registered person must undertake to comply with the specific regulation. Failure to comply with a regulation may be an offence. Readers must be aware that the report is intended to reflect the findings of the inspector at the particular inspection episode. Readers should not conclude that the circumstances of the service will be the same at all times; sometimes services improve and conversely sometimes they deteriorate.

# **Core standards**

Number	Standard Topic	Assessment
C1	Patients receive clear and accurate information about	Standard met
	their treatment	
C2	The treatment and care provided are patient – centred Standard met

		inspected
PD7	Contacting practitioners and Out of Hours services	Standard met
PD8	Information to GP's	Standard met

#### **Schedules of information**

The schedules of information set out the details of what information the registered person must provided, retain or record, in relation to specific records.

Schedule	Detail	Assessment
1	Information to be included in the Statement of	Met
	Purpose	
2	Information required in respect of persons seeking	Met
	to carry on, manage or work at an establishment	
3 (Part I)	Period for which medical records must be retained	Met
3 (Part II)	Record to be maintained for inspection	Met
4 (Part I)	Details to be recorded in respect of patients	Not applicable
	receiving obstetric services	
4 (Part II)	Details to be recorded in respect of a child born at	Not applicable
	an independent hospital	

## Requirements

The requirements below address any non-compliance with The Private and Voluntary Health Care (Wales) Regulations 2002 that were found as a result of assessing the standards shown in the left column and other information which we have received from and about the provider. Requirements are the responsibility of the 'registered person' who, as set out in the legislation, may be either the registered provider or registered manager for the establishment or agency. The Healthcare Inspectorate Wales will request the registered person to provide an 'action plan' confirming how they intend to put right the required actions and will, if necessary, take enforcement action to ensure compliance with the regulation shown..

Standard	Regulation	Requirement	Time scale
СЗ	14 (1) (b)	Findings There was no evidence of documentation to support that the general principles with the National Service Frameworks and National Institute of Clinical Excellence were applied where appropriate.  Action Required The registered person is required to reflect published research evidence and guidance issued by the appropriate professional and expert bodies where appropriate.	Within 2 months of receipt of this report

Standard	Regulation	Requirement	Time scale
213100.10	. regulation	Findings	
		The findings are detailed within the background and main findings section of the report numbered 2 – 8.	on
C22, C24, C25 C26 & PD5	14 (5)	Action Required  1. Create a process for recording and learning from near miss errors. This is to be implemented by clinic personnel.	Within 28 days of receipt of this report. (Stated and confirmed by manager as completed March 2010)
		2. An audit prescribing activity against the product licenses.	Within 28 days of receipt of this report.
		3. Create a policy for unlicensed medicines use that includes information for patients.	Within 28 days of receipt of this report.
		4. Reference NICE guidance in prescribing policies, and justif deviation from NICE where appropriate.	Within 28 days of receipt of this report. (Stated and confirmed by manager as completed March 2010)
		<ol> <li>Ensure that doctor signs stock books when the balances of medication are checked.</li> </ol>	Within 28 days of receipt of this report.
		6. Manager to put in place a legal process for disposal of stock medicines waste.	Within 28 days of receipt of this report. (Stated and confirmed by manager as completed March 2010)
		7. Ensure that the batch number and expiry date of medicines issued to each patient can be tracked clearly.	receipt of this

Standard	Regulation	Requirement	Time scale
		8. Fit a thermometer in the area where medicines are kept and record the temperature.	Within 28 days of receipt of this report. (Stated and confirmed by manager as completed March 2010)

#### Recommendations

Recommendations may relate to aspects of the standards or to national guidance. They are for registered persons to consider but they are not generally enforced.

Standard	Recommendation
C2	1. Patient information leaflets should be provided to patients with their medicine. Stated and confirmed by manager that the following action has been undertaken. Patients are given the manufacturers information leaflets and we have printed on our registration forms further information on the unlicensed status and side effects of the medication, we will look at incorporating this information into our patient information leaflets. March 2010.
	Ensure that copies of obesity management guidelines such as NICE are available.
C22	Ensure hazard notices regarding medicines are received and acted upon.

The Healthcare Inspectorate Wales exists to promote improvement in health and healthcare. We have a statutory duty to assess the performance of healthcare organisations for the NHS and coordinate reviews of healthcare by others. In doing so, we aim to reduce the regulatory burden on healthcare organisations and align assessments of the healthcare provided by the NHS and the independent (private and voluntary) sector.
